Bread: A Global History (Edible): William Rubel ... Bread: A Global History begins with ancient history in the fertile crescent of the Red Sea. The use of wild grains in bread-making probably predated agriculture and the domestication of animals. This book, which is the 24th in a series of edible histories, is ably edited by Andrew F. Smith. Bread: A Global History by William Rubel Common to the diets of both the rich and the poor, bread is one of our oldest foods. Loaves and rolls have been found in ancient Egyptian tombs, and wheat has been found in pits where human settlements flourished 8,000 years ago. Bread: A Global History by William Rubel, Hardcover ... Bread: A Global History is an informative and lighthearted book about our staff of life. The book is slender to the hand, but packed with history, facts, and stories. . . . The book is slender to the hand, but packed with history, facts, and stories.

Science of Bread: A Global Staff of Life | Exploratorium What kind of bread people make depends on what kind of grain is available, and that often depends on local climate and geography. In Ethiopia, for example, the nutritious, high-protein grain teff, which grows well in the country's central highlands, is used to make injera, the sour, spongy bread eaten with most meals. Bread, Cakes and Pastries: A Global Market Overview 43% of global volume growth in baked goods in 2013 came from China. In 2013, Asia Pacific generated over 60% of global baked goods growth. With burgeoning populations and low per capita consumption, China accounted for the majority of this growth, driving volume sales of pastries, in particular.
